Two imposing towers will be added to the two existing ones at the **Citylights Gardens** up Nivel Hills, proudly announced **Eugene Yong**, chairman of the board of Syntech Properties, Inc., the developer of Citylights, during the official launch of its Towers 3 & 4. Syntech is part of the Woh Hup Group of Companies, one of the most established and reputable building contractors and developers in Singapore.

Highlight of the evening affair was a program that saw the dramatic unveiling of a scale model. Special guest was **Gov. Gwen Garcia** who in her short message thanked the Syntech group for coming to Cebu and putting up a world-class project.

A ceremonial champagne toast came next with **Ambassador Lim Kheng Hua** of Singapore taking the lead. The program culminated with a beautiful display of fireworks, followed by a buffet dinner.

By the way, two model units are available for inspection anytime - a three bedroom unit with the interiors done by **Sandy Deen**, and a two-bedroom unit decorated by interior designer **Sheila Solon**.
