

Citylights Gardens Condominium

introduces two new towers

Citylights Gardens Condominium is going strong and fast with the rise of its two new towers - Towers 3 and 4. As of date, Tower 3 is now on its 17th Floor going to its 18th Floor. It has gone past the two old towers that have 14 floors each. Tower 4 is coming up to the 2nd Floor. Both towers will be opened simultaneously during the 2nd half of 2008.

Syntrich Properties, Inc. (SPI), the developer of

Citylights Gardens Condominium, is more than proud to note that they have been selected by the Regional Office of HLURB to be the only awardee as the Leading Condominium Developer for Open Market condominium development category for Region VII for 2007. As of this day, May 24, 2007, Janice Ngiam (Director) and Anita Blacoo (Sales and Marketing manager) have received this award from Mr. Antonio V.

Decatoris Sr. (Regional Officer of HLURB), Mr. Romulo Quirino M. Fabul (CEO & Commissioner of HLURB), Ms. Teresita A. Desierto (Supervising Commissioner) and no less than Philippine Vice President Noli De Castro.

Because the two new towers are really visible even from as far as Mactan, inquiries have increased in number and made through emails.
